

As an adaptive thinker, Tabitha uses her capacity to think logically and objectively about relationships, to achieve the best outcome for her clients. She came to SUHRCO in 2018, with a background in Account Management and specialized in aged balance recovery for third party medical billing.

Being fiscally conservative, Tabitha understands the complexities of corporate budgeting and the importance of fiduciary responsibility; as well as financial forecasting, that gives her Board's better insight to planning for the future of their Association.

Tabitha has received the Certified Manager of Community Associations (CMCA) designation and her career goals are focused on large-scale management.

In addition to the management of her portfolio, Tabitha has been appointed as part of a training

team for our Caliber software implementation, she oversees energy benchmarking, and she is our 2018 Rookie of the Year. Tabitha's accomplishment in her short time as a Community Association Manager are reflective of the work and dedication, she gives her portfolio.
