

**Brandy Markland CMCA®, AMS**

Division Manager, Association Management Services

---

---

Brandy came to us in 2017 with nearly twenty years of industry related work experience. Not only has she worked with Condominiums and HOA's, but has training in the accounting field, as a real estate broker, and in a prior life, was also a teacher. What she will tell you when asked about what she loves most about this industry is how all of her prior career experiences tie together in ways that strongly benefit her clients.

Prior to coming to work with SUHRCO, she held a Senior Management position with another local firm and specializes in large exterior renovation projects for a multitude of Condominium Associations. Her track record working alongside Board of Directors to come up with the best plan for a large project has been phenomenal. She understands the “bigger picture” for communities and works tirelessly towards positive results for her clients while building a strong team of professionals for each community/project. Special Assessments and Condominiums Association loans can be scary to most people, but not to Brandy. She also tends to be extremely proactive and believes in leading communities by offering advice and recommendations based on her many years of experience. Timely follow-ups and stellar customer service are two of the most important tasks in her day-to day performance.

She has been a member of the Community Association Institute (CAI) for many years and holds the designation of Certified Manager of Community Associations (CMCA) and is working towards her Professional Community Association Manager (PCAM) certification. In her spare time she helps to coordinate local charity events, and owns and operates a small urban organic farm, Symbiotic Farm, growing heirloom vegetables using permaculture techniques, and raising miniature goats, chickens and goats.
