

Tesia Mirando

Community Association Manager, CMCA®
SUHRCO Residential Properties, LLC

After being in the business since 2016, I truly enjoy HOA/Condominium management. I pride myself on being a person with a great work ethic who genuinely enjoys learning new objectives and tackling challenges in diverse environments. As a portfolio Community Manager, I remain an enthusiastic professional and take pride in integrity, honesty, and credibility. My associates have always known me as someone with high energy and a bright smile. Starting my career in Las Vegas, Nevada, which is one of the strictest states for HOA/Condominium Law, I recently moved to Renton, Washington, in October of 2023. I have managed multi-million dollar single-family homes and condominiums of all sizes and complexities. I take pride in my work and communication with not only my Boards but also the homeowners.

I have been a member of the Community Association Institute (CAI) and currently hold the designation Certified Manager of Community Associations (CMCA).

When not working, I love being a mother of two active daughters, Audree, and Rylee, who keep me busy. I also enjoy playing pickle ball and golf, riding bikes, shopping, being with family, camping, fishing, hunting or anything outdoors with my partner, and traveling.

I am so happy to be here in Washington and with SUHRCO and can't wait to see what the future holds.
